

SURVIVAL PROJECT

TITLE: TIC-TAC-TOE

MOTIVATION:

All 3 of us are feeling lost in life and want to do something in WebDev so here comes our project work.

Also we sucked in our DBMS Project.

Loss is the only motivation. Lol We will do thisss.

AIM:

To learn HTML, CSS, JS and coordinating with team members while doing a Tic-Tac-Toe game by respecting the dues. NOTE: It's a solo project done with team guidance.

FEATURES:

- Full working Tic-Tac-Toe game
- We will add more features as per our growing knowledge.

TECHNOLOGY:

- 1) HTML
- 2) CSS
- 3) JS
